

SHIVANSH SINGH

Ahmedabad, Gujarat, India | +91 6392567798 | Shivansh3239@gmail.com | [linkedin.com/in/shivansh-singh-8404b4202/](https://www.linkedin.com/in/shivansh-singh-8404b4202/)

PROFESSIONAL SUMMARY

Results-driven Electronics Manufacturing Services (EMS) Professional with 4+ years of hands-on experience in high-volume SMT/THT assembly, Box Build operations, EV component manufacturing, and shopfloor leadership. Proven expertise in machine installation, commissioning, FAT/SAT testing, process validation (PFD, PFMEA, Control Plan), quality management systems (IATF 16949, ISO audits), and Measurement System Analysis (MSA/Gauge R&R). Experienced in Manufacturing Execution Systems (MES), optimizing UPH/OEE, and driving root cause analysis (RCA) and CAPA for defect reduction. Eager to expand technical knowledge and leverage lean production expertise in Battery Manufacturing (BMS/BCU) and Semiconductor Packaging & Assembly industries.

CORE COMPETENCIES & TECHNICAL SKILLS

- **EMS & EV Manufacturing:** Box Build Assembly, BMS (Battery Management System), BCU (Body Control Unit), DTU, OBC, Electric Bike Electronics, TWS & Mobile Phone Assembly.
- **Equipment Commissioning & Line Readiness:** Machine Installation & Commissioning, Factory Acceptance Testing (FAT), Site Acceptance Testing (SAT), Machine Trials, Vendor Coordination, Line Readiness.
- **Process Engineering & Quality Documentation:** PFMEA, Process Flow Diagram (PFD), Control Plans, Work Instruction (WI) Creation, Checklist Development, IATF 16949 Standards, ISO Auditing.
- **Quality Assurance & Data Analysis:** Measurement System Analysis (MSA), Gauge R&R (Repeatability & Reproducibility), HMI & PLC Parameter Monitoring, Defect Tracking, In-Line Inspection.
- **Lean Manufacturing & RCA:** Kaizen, 5S/6S Audits, Poka-Yoke, Gemba Walks, 7 QC Tools, 8D Methodology, 5 Whys, RCA, CAPA, Yield Improvement.
- **Production & Shopfloor Systems:** Manufacturing Execution Systems (MES), ERP Systems, Skill Matrix Management, Daily Output Optimization, Cleanroom & ESD Protocols, Dry-Room Safety.

WORK EXPERIENCE

Junior Engineer (Manufacturing) — SRK Techtronics

Ahmedabad, Gujarat | Recent Promotion – April

- Spearhead machine installation, commissioning, Factory Acceptance Testing (FAT), and Site Acceptance Testing (SAT) for new production lines.
- Ensure complete line readiness, perform machine trials, and coordinate directly with vendors for successful equipment qualification and trial runs.
- Formulate and update crucial manufacturing documentation including Work Instructions (WI), Process Flow Diagrams (PFD), PFMEA, Control Plans, and operational check-sheets.
- Conduct Measurement System Analysis (MSA) and Gauge R&R (Repeatability & Reproducibility) studies to ensure precise measurement standards.
- Monitor HMI screens, machine parameters, alarms, and execution metrics via Manufacturing Execution Systems (MES) to maintain consistent daily output targets.
- Enforce IATF 16949 guidelines and actively participate in ISO audit phases to maintain continuous quality compliance.
- Drive Root Cause Analysis (RCA) and Corrective and Preventive Action (CAPA) implementation to eliminate production bottlenecks and workmanship defects.

Team Lead (Production) — SRK Techtronics

Ahmedabad, Gujarat | Jan 2026

- Managed Box Build assembly operations for Electric Vehicle electronics including BMS (Battery Management System), BCU (Body Control Unit), DTU, OBC, and TWS devices.
- Supervised shopfloor operations, managed shift manpower allocation, and updated operator competency via Skill Matrix tracking.

- Conducted in-process quality inspections for alignment, weld quality, dimensional accuracy, and visual defect elimination.
- Maintained strict adherence to ESD safety, dry-room protocols, and moisture-sensitive component handling standards.
- Facilitated Cross-Functional Team (CFT) meetings to streamline daily output tracking and drive continuous improvement.

Team Lead (Production) — Tata Electronics System Solutions Pvt. Ltd.

Bangalore, KA | Jan 2025 – Jan 2026

- Directed shopfloor operators to meet daily production targets while enforcing strict SOP compliance and safety standards.
- Utilized 7 QC Tools, 5 Whys, Ishikawa, and 8D methodology to conduct root cause analysis and reduce workmanship defect rates.
- Led operator onboarding, multiskilling programs, shift planning, and line balancing to optimize overall productivity.
- Participated in 6S audits, Gemba Walks, and Kaizen projects, maintaining strong lean manufacturing principles across lines.
- Tracked shift metrics, inventory status, and output logs using ERP systems and Microsoft Office tools.

NEEM Trainee / Mechatronics Operator — Schneider Electric IT Business India Pvt. Ltd.

Bangalore, KA | Dec 2021 – Dec 2024

- Executed manual assembly, THT soldering, testing, and visual inspection on high-reliability UPS, VFD, and PCB lines.
- Functioned as Acting Line Leader, managing shift manpower, component handling, and MES system production reporting.
- Applied 5S, Lean Manufacturing, and Kaizen practices to minimize downtime and streamline line changeover efficiency.

EDUCATION

B.Tech in Electronics & Communication Engineering (WILP)

Expected: 2028

Shri Venkateswara University, Gajraula, U.P.

Diploma in Manufacturing Electronics Assembly

2024

NTTF Training Centre (NEC), Bangalore

CERTIFICATIONS

- Six Sigma Certification
- ESD Internal Audit Certification
- Bottleneck Management Training — Tata Electronics | Fire Fighter & First Aid Training — Tata Electronics
- 5S & Lean Manufacturing Training | NTTF Manufacturing Electronics Assembly Certification
- Practical workshop - CAPA and 8D Corrective Action Methodology
- ISO 9001:2015 and IATF 16949:2016 Awareness Program
